Accessing School Success through Technology

## **Accessing School Success through Technology**

The Summit School is pleased to announce its first annual technology showcase

**Beyond Computers: Accessing School Success through Technology**

**Saturday April 10, 2010**

**9am-1pm**

*The Summit School*®

664 Central Avenue  
Edgewater, MD 21037  
410-798-0005

[www.thesummitschool.org](http://www.thesummitschool.org)

The Fair is a parent-led initiative aimed at increasing the knowledge of parents and educators regarding technology and its implications for supporting students who learn differently.

We expect to have:

- an exciting line up of exhibitors demonstrating equipment software and solutions designed to help students excel
- speakers who are expert in educating children with learning differences
- networking opportunities

Technology companies, area schools and the surrounding community are all invited. We hope that you will be able to attend. Stay tuned for more information.

### **About Summit**

Summit is a private, non-profit, coeducational day school for bright students in grades 1–8 with dyslexia and other learning differences. The School offers a mainstream curriculum emphasizing activity-based learning using specialized instruction in reading, mathematics, and written language. Creative use of technology is a critical and growing part of our academic strategy. Summit is an award winning school, recognized for its excellence and leadership in the area of educating children with learning differences. We are proud that among other recognitions, Summit has been selected a School of Excellence by the National Association of Special Education Teachers (NASSET), and Non-profit of the Year by the Annapolis and Anne Arundel County Chamber of Commerce. Located in Edgewater, Maryland, Summit is approximately twenty minutes Southwest of Annapolis and is accessible from two large municipalities: Baltimore City and Washington, D.C.

If you have questions about the Technology Fair please feel free to contact Ms. Hannah Johnston [stagers54@aol.com](mailto:stagers54@aol.com) or by calling the school at 410-798-0005.
