ABOUT THE SUMMIT SCHOOL

The Summit School was founded to serve children, grades 1-8, with dyslexia and other learning differences. For over 30 years, Summit has built an incredible record of helping children become successful readers and learners.

The core of Summit's program incorporates highly trained teachers, evidence based instruction, hands-on, multi-sensory learning and small class sizes.

The Summit School and The Summit Resource Center are fast becoming the regional resource for parents and professionals who seek services for children and adolescents with dyslexia and other learning differences. Services include diagnostic testing, individual tutoring, summer programs, community talks and seminars.

Events such as our Annual Golf Tournament, help Summit connect with the community, raise awareness of the resources available and most importantly, build the financial support our students and faculty need to be successful.

For more information about The Summit School and Summit Resource Center, please visit www.thesummitschool.org.
