Edgewater, MD

PARTNER SCHOOL OPPORTUNITIES

For 15 years, The Summit School has been hosting symposiums that deliver relevant, research-driven information to the community.

The Summit School invites you to join and become a Partner School for one or both of these events.

PARTNER SCHOOL BENEFITS:

One Symposium - \$500 investment / Both Symposia - \$800 investment

- 6 registrations (lunch included) at each event for which you are a Partner School
- School logo included on print material
- School logo included on event webpage
- School name in press releases

A \$500 investment for one event equals \$83 per attendee; \$800 for both events / \$66 per attendee.

Social Thinking Across the Home and School Day: The ILAUGH Model / 8:00am - 3:45pm

Speaker: Nancy Clements, MA, CCC-SLP

Discover an array of concepts and strategies that bolster social learning and help students meet socially based educational standards. Explore the ILAUGH Model of Social Cognition to help break down and make sense of the social world.

Uncover how challenges in social communication, executive functioning, and perspective taking impact written expression, reading comprehension of literature, organizational skills, and working in a group—and learn strategies to help students, clients, and patients improve in each of the above! Rounding out the day: learn essential tips for effective IEP goal writing and data keeping. The information taught in this course was developed to help individuals with social learning challenges, but teachers tell us all students in their classroom benefit from learning these concepts.

The Power of Mindset: Nurturing Motivation, Hope, and Resilience in Children / 8am - 3:30pm

Speaker: Dr. Robert Brooks

Today's children face a multitude of pressures. Central to growing up successfully is learning to manage stress, confront challenges, and thrive in the face of adversity. Resilience—the ability to cope with and overcome life's difficulties—is a quality that can potentially be nurtured in all children and teens. Resilience involves such important attributes as self-discipline, effective problem solving, caring, motivation, and hope. Join us for a day with Dr. Robert Brooks as he describes realistic strategies for developing these attributes in both the home and school setting. Teachers, parents, and other caregivers will learn actions they can initiate to reinforce a resilient mindset and behaviors in youth, especially those who are burdened with a negative mindset and self-defeating ways of coping.

If you have any questions please contact
